Instructions for connecting to the Baruch College Wireless Network for Students
Windows 8 Guide

Baruch College now offers a convenient, secure way for Students to connect their wireless devices to our secure wireless network. This guide will describe how you can connect your Windows 8 workstation in a step-by-step manner.

Requirements:

Microsoft Windows 8

Step 1: Make sure your wireless is turned on and is showing all available networks. If you are in range of a wireless access point while on campus, you will see the access point listed as “Baruch-Students” as a choice.
Step 1 (continued):
Step 2: Select “Baruch-Students” from the list of available access points.
Step 3: You will be presented with login window asking for a user name and password.
Please enter your Baruch Username as the username and your current password. You will login exactly how you would login to some computers on campus. An example is found below:

Select “OK.”
**Step 4:** You will be notified that Windows can’t verify the server’s identity.

Select “Connect.”
Step 5: Windows will verify the information you entered is correct.
If the information you entered is correct, you will be authenticated and connected.
You will now be able to connect to the internet.

If you have any problems, please do not hesitate to contact the Baruch College Computing & Technology Help Desk for assistance.
