Instructions for connecting to the Baruch College Wireless Network for Students

iOS (iPhone) Guide

Baruch College now offers a convenient, secure way for Faculty and Staff to connect their wireless devices to our secure wireless network. This guide will describe how you can connect your iPhone in a step-by-step manner.

Requirements:

Apple iPhone with the most recent iOS software update installed

**Step 1:** Make sure your wireless is turned on and is showing all available networks. Go to your phone settings via the Settings icon. Once there, select “Wi-Fi.”

![iPhone Settings](image)
If you are in range of a wireless access point while on campus, you will see the access point listed as “Baruch-Students” as a choice.
Step 2: Select “Baruch-Students” from the list of available access points. You will be prompted to enter your credentials.

Step 3: Please enter your Baruch Username as the username and your current password. You will login exactly how you would login to some computers on campus. An example is found below:

Select “Join.”
Step 4: If the information you entered is correct, you will be asked to accept a certificate. This is necessary to be authenticated and connected.

Select “Accept.”
Once you select “Accept” you will then be connected to the Baruch-Students wireless network. If you have any problems, please do not hesitate to contact the Baruch College Computing & Technology Help Desk for assistance.
