STUDENT ADVISORY MEMORANDUM

March 31, 2004

To: College Presidents

From: Vice Chancellor Frederick P. Schaffer

Re: Drug, Tobacco and Alcohol Abuse Prevention

This memorandum sets forth the requirements under federal law and CUNY policy to prevent drug, tobacco and alcohol abuse.

Federal Law: Drug and Alcohol Abuse Prevention

Pursuant to 20 U.S.C. §1011i, institutions of higher education must adopt and implement a program to prevent the use of illicit drugs and the abuse of alcohol by students and employees. Each institution must annually distribute the following information to every student and employee:

1. Standards of conduct that prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees on the college’s property or as part of college activities

and the sanctions for violations of these standards (see Attachment A: City University Statement on Drug, Tobacco and Alcohol Education; Attachment B: CUNY Smoking Policy; Attachment C: Rules and Regulations for Maintenance of Public Order);

2. A description of the applicable legal sanctions under local, State or Federal law for the unlawful possession or distribution of illicit drugs and alcohol by students and employees on the institution’s property or as part of its activities (see Attachment D: Federal Penalties and Sanctions for Illegal Trafficking and Possession of a Controlled Substance; Attachment E: Criminal Classifications and Penalties for Narcotics, Other Controlled Substances, and Marijuana in New York State);

3. A description of the health risks associated with the use of illicit drugs and the abuse of alcohol (see Attachment A: City University Statement on Drug, Tobacco and Alcohol Education; Attachment F: Common Drugs and Symptoms of Abuse);

4. A description of any drug or alcohol-related counseling, treatment, rehabilitation, or re-entry programs available to students and employees (see Attachment G: Sample description).

The law also requires that the institution review its program every two years to determine its effectiveness and to implement any changes that may be necessary, and to ensure that the standards of conduct are consistently enforced.

Section 1011(a) provides that an institution which fails to adopt and implement this program shall not be eligible to receive funds or any other form of financial assistance under any federal program, including student loan programs.

**Tobacco Use Policy**

CUNY has adopted standards of conduct relating to tobacco use and abuse. In addition to the requirements of federal law, each campus must annually distribute the following information to every student and employee:

1. City University Statement on Drug, Tobacco and Alcohol Education (Attachment A);

2. City University Smoking Policy (Attachment B);

3. Rules and Regulations for the Maintenance of Public Order (Attachment C) (also required by Federal Law);

4. Common Drugs and Symptoms of Abuse, including Tobacco (Attachment F) (also required by Federal Law).

CITY UNIVERSITY OF NEW YORK
STATEMENT ON DRUG, TOBACCO AND ALCOHOL EDUCATION

STANDARDS OF CONDUCT

The City University of New York is a caring community committed to promoting the physical, intellectual, social, and ethical development of all individuals. The inappropriate use of alcohol, tobacco and illicit drugs threaten the health and safety of students, employees, their families, and the general public and adversely impairs performance. In addition to promoting health, safety and a positive learning and working environment, the City University is committed to preventing alcohol and other drug-related problems among all members of the University community.

The unlawful manufacture, possession, distribution, dispensation, possession or use of alcohol or other drugs by anyone, either on University property or at University-sponsored activities, is prohibited. Any person who is determined to have violated this policy will be subject to the appropriate penalties. (see Attachment B)

As a condition of employment, any employee of the City University must notify his or her supervisor if he or she is convicted of a drug-related offense involving the work place within five (5) days of conviction. Pursuant to the Drug-Free Workplace Act of 1988, 34 CFR § 85.635, the University is then required to notify the appropriate granting or contracting federal agency within ten (10) days of receiving notice of any such conviction.

These standards of conduct and policies are consistent with the City University's desire to promote health and safety and are in accordance with the requirements of the Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendments of 1989. The University will continue its efforts to maintain an environment free from the unlawful possession, use, and distribution of alcohol and other drugs.

HEALTH RISKS ASSOCIATED WITH ABUSE OF ALCOHOL AND USE OF TOBACCO

Alcohol

Alcohol (ethanol) is toxic to the human body. It is a central nervous system depressant that slows bodily functions such as heart rate, pulse and respiration. Taken in large quantities, it progressively causes intoxication, sedation, unconsciousness, and even death if consumed in large amounts. Alcoholics can often consume large quantities of alcohol without appearing to be drunk or uncontrolled. Nevertheless, alcoholism causes severe emotional, physical and psychological damage. Prolonged heavy drinking can damage various organs, resulting in disorders such as cirrhosis of the liver, heart disease, pancreatitis and cancer. It can also lead to gastrointestinal irritation (nausea, diarrhea, gastritis, ulcers), malnutrition, sexual

Attachment A
dysfunction, high blood pressure, lowered resistance to disease, and possible irreversible brain and nervous system damage. Alcoholism can also lead to a wide variety of problems involving one’s emotional, family, work and social life.

Tobacco

The Department of Health and Human Services, the American Psychiatric Association and the World Health Organization have determined that nicotine, the chief component of tobacco, is a highly addictive drug. Forty years ago the first report of the Surgeon General of the United States was issued on the impact of tobacco use on health. This 1964 report presented stark conclusions: that cigarette smoking causes lung cancer and is the most significant cause of chronic bronchitis. The report linked tobacco smoking with emphysema and other forms of cancer. The health hazards of tobacco use are now well documented and directly linked to the death of an estimated 390,000 Americans a year.

Recent studies have shown that exposure to environmental tobacco smoke is associated with the occurrence of many diseases, such as lung cancer and heart disease in nonsmokers and low birthrate in the offspring of nonsmokers. Because environmental tobacco smoke represents one of the strongest sources of indoor air contaminants in buildings where smoking is permitted, The City University has adopted a policy that prohibits smoking inside all University facilities (buildings). College presidents are free to impose a total ban on smoking on their grounds, or provide for limited smoking areas outside of buildings, a set distance from a building’s entrance.

FEDERAL AND STATE SANCTIONS FOR UNLAWFUL USE OF ALCOHOL AND DRUGS

Both Federal and New York State law make it a criminal offense to manufacture, distribute, dispense or possess with intent to manufacture, distribute, dispense or simply possess a controlled substance, including marijuana. 21 U.S.C. § 801, et. seq.; New York State Penal Law, §§ 220, 221; New York State Public Health Law, § 3306. The sanctions for violation of these laws depend upon the particular offense and depend on aggravating factors such as the type and quantity of drugs involved. Sanctions range from monetary fines and community service to imprisonment.

Below are some additional and important New York State laws regarding the unlawful use of alcohol, tobacco and other drugs:

• Appearing in public under the influence of narcotics or a drug other than alcohol to the degree that he may endanger himself or other persons or property, or annoy persons in his vicinity is a violation, punishable by a fine and imprisonment up to 15 days. New York State Penal Law § 240.40
• Giving or selling an alcoholic beverage to a person less than twenty-one years is a class A misdemeanor punishable by a sentence of imprisonment up to one year. New York State Penal Law §260.20(2)

• Any person who operates a motor vehicle while intoxicated or while his ability to operate such vehicle is impaired by the consumption of alcohol or drugs, is subject to suspension or revocation of driving privileges in the State, monetary fines up to $1,000, and imprisonment up to one year. New York State Vehicle Traffic Law § 1192

• Selling tobacco products to any person under the age of eighteen is a class B misdemeanor and punishable by imprisonment up to three months. New York State Penal Law, §260.21(3)

UNIVERSITY SANCTIONS

Students

Students are expected to comply with the standards of conduct published and distributed by the college. Any student found in violation of University policy may be subject to disciplinary action. Sanctions may include admonition, warning, censure, disciplinary probation, restitution, suspension, expulsion, ejection and arrest by civil authorities. The Chief Student Affairs Officer may take disciplinary action or recommend that a student meet with a counselor for appropriate referral or assistance through self-help organizations or other outside intervention agencies. A member of the instructional staff may refer any student who is experiencing difficulty with alcohol or illicit drugs to any Student Affairs Officer or to an appropriate Counseling and Advisement Center. Students should be encouraged to seek assistance directly from the available resources when necessary.

Employees

Employees found in violation of the standards of conduct may be subject to penalties under the Henderson Rules and discipline under the provisions of their union contract. Sanctions that may be imposed in addition to those found in the various contracts include verified attendance and successful participation in an employee assistance program.
NO. 5. COMMITTEE ON FACULTY, STAFF, AND ADMINISTRATION: RESOLVED, That the following items be approved:

A. CUNY-WIDE - PROHIBITION OF SMOKING:

WHEREAS, As the largest urban university in the country, The City University is committed to promoting the health and well-being of its faculty, students and staff; and

WHEREAS, The health hazards of tobacco use are well-documented and directly linked to the death of an estimated 390,000 Americans a year; and

WHEREAS, Exposure to environmental tobacco smoke has been associated with the occurrence of many diseases, such as lung cancer and heart disease in nonsmokers and low birthrate in the offspring of nonsmokers; and

WHEREAS, Environmental tobacco smoke represents one of the strongest sources of indoor air contaminants in buildings where smoking is permitted; therefore

BE IT RESOLVED, That smoking is prohibited inside all facilities owned, leased, or operated by The City University of New York, effective January 1, 1995.

EXPLANATION: This policy will further strengthen the current Smoking Policy of The City University of New York, approved by the Council of Presidents at its meeting of May 7, 1990, which prohibited smoking in over ninety percent of the space in campus buildings, including classrooms, auditoriums, elevators, hallways, restrooms and other common areas. The significant health hazards associated with tobacco smoke for both smokers and non-smokers alike clearly indicates, the necessity of creating a University smoke-free environment.
RULES AND REGULATIONS FOR THE MAINTENANCE OF PUBLIC ORDER PURSUANT TO ARTICLE 129-A OF THE EDUCATION LAW

The tradition of the University as a sanctuary of academic freedom and center of informed discussion is an honored one, to be guarded vigilantly. The basic significance of that sanctuary lies in the protection of intellectual freedom: the rights of professors to teach, of scholars to engage in the advancement of knowledge, of students to learn and to express their views, free from external pressures or interference. These freedoms can flourish only in an atmosphere of mutual respect, civility, and trust among teachers and students, only when members of the University community are willing to accept self-restraint and reciprocity as the condition upon which they share in its intellectual autonomy.

Academic freedom and the sanctuary of the University campus extend to all who share these aims and responsibilities. They cannot be invoked by those who would subordinate intellectual freedom to political ends, or who violate the norms of conduct established to protect that freedom. Against such offenders the University has the right, and indeed the obligation, to defend itself. We accordingly announce the following rules and regulations to be in effect at each of our colleges which are to be administered in accordance with the requirements of due process as provided in the Bylaws of the Board of Trustees.

With respect to enforcement of these rules and regulations we note that the Bylaws of the Board provide that:

"THE PRESIDENT. The president, with respect to his education unit, shall:

a. Have the affirmative responsibility of conserving and enhancing the educational standards of the college and schools under his jurisdiction;

b. Be the advisor and executive agent of the Board and of his respective College Committee and as such shall have the immediate supervision with full discretionary power in carrying into effect the Bylaws, resolutions, and policies of the Board, the lawful resolutions of the several faculties;

c. Exercise general superintendence over the concerns, officers, employees, and students of his educational unit."

1. RULES

1. A member of the academic community shall not intentionally obstruct and/or forcibly prevent others from the exercise of their rights. Nor shall he interfere with the institution's educational processes or facilities, or the rights of those who wish to avail
themselves of any of the institution's instructional, personal, administrative, recreational, and community services.

2. Individuals are liable for failure to comply with lawful directions issued by representatives of the University/college when they are acting in their official capacities. Members of the academic community are required to show their identification cards when requested to do so by an official of the college.

3. Unauthorized occupancy of University/college facilities or blocking access to or from such areas is prohibited. Permission from appropriate college authorities must be obtained for removal, relocation, and use of University/college equipment and/or supplies.

4. Theft from, or damage to University/college premises of property, or theft of or damage to property of any person on University/college premises is prohibited.

5. Each member of the academic community or an invited guest has the right to advocate his position without having to fear abuse, physical, verbal, or otherwise, from others supporting conflicting points of view. Members of the academic community and other persons on the college grounds shall not use language or take actions reasonably likely to provoke or encourage physical violence by demonstrators, those demonstrated against, or spectators.

6. Action may be taken against any and all persons who have no legitimate reason for their presence on any campus within the University/college, or whose presence on any such campus obstructs and/or forcibly prevents others from the exercise of the rights or interferes with the institution's educational processes or facilities, or the rights of those who wish to avail themselves of any of the institution's instructional, personal, administrative, recreational, and community services.

7. Disorderly or indecent conduct on University/college-owned or controlled property is prohibited.

8. No individual shall have in his possession a rifle, shotgun, or firearm or knowingly have in his possession any other dangerous instruments or material that can be used to inflict bodily harm on an individual or damage upon a building or the grounds of the University/college without the written authorization of such educational institution. Nor shall any individual have in his possession any other instrument or material which can be used and is intended to inflict bodily harm on any individual or damage upon a building or the grounds of the University/college.

9. Any action or situation which recklessly or intentionally endangers mental or physical health or involves the forced consumption of liquor or drugs for the purpose of initiation into or affiliation with any organization is prohibited.

10. The unlawful manufacture, distribution, dispensation, possession, or use of illegal drugs or other controlled substances by University students or employees on University/college premises, or as part of any University/college activities is prohibited. Employees of the
University must also notify the College Personnel Director of any
criminal drug statute conviction for a violation occurring in the
workplace not later than (5) days after such conviction.

11. The unlawful possession, use, or distribution of alcohol by
students or employees on University/college premises or as part of any
University/college activities is prohibited.

2. PENALTIES

1. Any student engaging in any manner in conduct prohibited under
substantive Rules 1-11 shall be subject to the following range of
sanctions as hereafter defined in the attached Appendix: admonition,
warning, censure, disciplinary probation, restitution, suspension,
expulsions, ejection, and/or arrest by the civil authorities.

2. Any tenured or non-tenured faculty member, or other member of the
instructional staff, or member of the classified staff engaging in any
manner in conduct prohibited under substantive Rules 1-11 shall be
subject to the following range of penalties: warning, censure,
restitution, fines not exceeding those permitted by law or by the
Bylaws of The City University of New York or suspension with/without
pay pending a hearing before an appropriate college authority,
dismissal after a hearing, ejection, and/or arrest by the civil
authorities, and, for engaging in any manner in conduct prohibited
under substantive rule 10, may, in the alternative, be required to
participate satisfactorily in an appropriately licensed drug treatment
or rehabilitation program. A tenured or non-tenured faculty member,
or other member of the instructional staff, or member of the
classified staff charged with engaging in any manner in conduct
prohibited under substantive Rules 1-11 shall be entitled to be
treated in accordance with applicable provisions of the Education Law,
or the Civil Service Law, or the applicable collective bargaining
agreement, or the Bylaws or written policies of The City University of
New York.

3. Any visitor, licensee, or invitee, engaging in any manner in
conduct prohibited under substantive Rules 1-11 shall be subject to
ejection, and/or arrest by the civil authorities.

4. Any organization which authorized the conduct prohibited under
substantive rules 1-11 shall have its permission to operate on campus
revoked.

Penalties 1-4 shall be in addition to any other penalty provided by
law or The City University Trustees.

APPENDIX

SANCTIONS DEFINED:

A. Admonition.

An oral statement to the offender that he has violated university
rules.
B. Warning

Notice to the offender, orally or in writing, that continuation or repetition of the wrongful conduct, within a period of time stated in the warning, may cause far more severe disciplinary action.

C. Censure.

Written reprimand for violation of specified regulation, including the possibility of more severe disciplinary sanction in the event of conviction for the violation of any University regulation within a period stated in the letter of reprimand.

D. Disciplinary Probation.

Exclusion from participation in privileges or extracurricular University activities as set forth in the notice of disciplinary probation for a specified period of time.

E. Restitution.

Reimbursement for damage to or misappropriation of property. Reimbursement may take the form of appropriate service to repair or otherwise compensate for damages.

F. Suspension.

Exclusion from classes and other privileges or activities as set forth in the notice of suspension for a definite period of time.

G. Expulsion.

Termination of student status for an indefinite period. The conditions of readmission, if any is permitted, shall be stated in the order of expulsion.

H. Complaint to Civil Authorities.

I. Ejection.

Note: Taking drugs of any type during pregnancy can be hazardous. Adapted from "Children and Drugs," distributed by Blue Cross and Blue Shield Plans of Vermont and New Hampshire.
DRUGS, ALCOHOL AND TOBACCO USE

The legislature of the State of New York and federal statues have made the possession, sale, or purchase of certain drugs, without authorization, a crime. New York law prohibits selling or giving alcohol to any “visibly intoxicated person.” The possession and consumption of alcohol is illegal under state law for those under 21 years of age. All members of the College community are expected to abide by the laws of the city, state, and federal government (Board of Trustees Bylaws, Article XV, Section 15.1). The Law School will not serve as a sanctuary, and cannot insulate its members from the consequences of illegal acts. The Law School will not protect its students, faculty or staff from prosecution under the law. All members of the community are expected to abide by city, state, and federal statues that have made the possession, sale, or purchase of illegal drugs a crime. Smoking is prohibited in the Law School and it is illegal to sell tobacco to persons under the age of 18 in New York State.

Counseling Services-available at Queens College

If you are experiencing difficulty with alcohol or chemical dependency, Queens College can help you find counseling services or rehabilitation programs that will help you with your problem.

Students may be referred to the Dean of Students or the Counseling and Advisement Center (Powdermaker Hall Room 128 718-997-5420) by members of the instructional staff or may seek assistance directly.

The Law School has a part-time Certified Social Worker on staff who can direct students or staff to appropriate services for alcohol and chemical dependency. (Linda Penkower, Room 350G, 718-340-4216)

COUNSELING

A counselor is available on a part-time basis to counsel students on a wide range of personal, emotional, and psychological issues. The counselor also conducts workshops and facilitates support groups on a number of topics including test anxiety and stress management. All information shared with the counselor will be kept in strict confidence. The counselor's office hours (Linda Penkower) are posted by room 350G-the office phone number is 718-340-4216.

The Counseling Center at Queens College sees students for personal counseling for as few as one or two sessions or for as long as one or two semesters. The contact may involve referral to other Queens College services, or to various community resources including clinics and practitioners providing long term counseling. Group workshops are available to students with special problems (i.e. eating disorders, substance abuse, test anxiety). Please contact the Center to make an appointment. All counseling services are confidential.

Hours: 9:00AM to 4:00PM
Powdermaker Hall Room 128, Queens College
