Your Employee ID

Your ID is not project specific. You will be using the same employee ID every time you work for the Research Foundation either now or in the future.

Located on your Pay Stub
You can obtain your employee ID number by either looking at the top part of your pay stub—if you were previously paid by the Research Foundation via a paper check that was sent to you in the mail or directly deposited into your bank account.

Contact the Grants Office or the Research Foundation
If you have not received a paycheck previously then you must contact the Grants Coordinator or the Research foundation to obtain you “Employee ID” number.

Or what year was your car made in? In case of any problems (e.g. lost password), answers to these questions will help the RF staff to identify you as the employee, and give you the help you need.

Then you will be asked for a chosen password.

Please make sure you memorize your ID and password. That is the only information you will need to remember!

For instance:

EMPLOYEE ID: 123456
