Recommendations for Continuing Compliance of the Middle-States Standards Provided by The Visiting Evaluation Team after Baruch’s Self-Study Report, April 2010.

VI. Summary of Recommendations for Continuing Compliance

**Standard 3: Institutional Resources**

*The human, financial, technical, facilities, and other resources necessary for achieving an institution’s mission and goals are available and accessible. In the context of the institution’s mission, the effective and efficient uses of the institution’s resources are analyzed as part of ongoing outcomes assessment. Recognizing that College administration is proceeding with elements of multi-year enrollment and budget forecasting, we recommend developing an all-funds multi-year budgeting model under various resource scenarios, consistent with the College’s overall strategic planning process.*

**Standard 8: Student Admissions and Retention**

*The institution seeks to admit students whose interests, goals, and abilities are congruent with its mission, and seeks to retain them through the pursuit of the students’ educational goals. We recommend that the multi-year enrollment plan that is currently in the drafting stage be widely discussed and finalized.*

**Standard 14: Assessment of Student Learning**

*Assessment of student learning demonstrates that the institution’s students have knowledge, skills, and competencies consistent with institutional goals, and that students at graduation have achieved appropriate higher education goals. We recommend that the College work to ensure that the assessment processes and activities put in place in the last several years continue after this visit. The increased activity in this area appears to be recent, and loss of momentum following this visit is possible.*
