Practice with AV Aids

1. Check electronic equipment before presentation
2. Rehearse presentation slides
3. Choose proper room lighting (not too dark or too light)
4. Create back-up plan ("The show must go on")
Speak with Technique

1. Keep eye contact with the audience
2. Speak extemporaneously
3. Use gestures
4. Move away from lectern and toward the audience
Remain in Control

1. Don't let slides dominate your presentation
2. Don't use the screen as a teleprompter
3. Avoid passing visual aids among the audience; the audience should focus on you
Make Content Clear

1. Explain Visuals
2. Follow wording and order of text on screen
Navigate Smoothly

1. Display slides only when discussing them
2. Don't move mouse while talking
3. Switch to black screen when not speaking about a visual (B key = black)
Answer with Skill

1. Repeat or rephrase questions before answering them
2. Rewind or forward to specific slides when needed (enter slide number on the keyboard)
3. Consider creating extra slides for possible questions
