## BBA IN ECONOMICS

**42** Pathways Credits

**24** Pre-Business Credits

**21** Business Base Credits

**24** Major Credits

**13** Elective Credits

The Degree Map is a term-by-term sample course schedule to make it easier for you to understand how to graduate in four years with an Economics (BBA) major. Use the Degree Map along with DegreeWorks as tools to assist you in planning your academic path to graduation. Your specific program of study could, and probably will, look different. You need to customize your Degree Map to fit your individual needs.

NOTE: A minimum 124 credits is required for the Bachelor of Business Administration (BBA) degree. A minimum of 62 liberal arts credits is required for the BBA. FYS 1000 is a requirement for the first term at Baruch College and **MUST** be completed in order to graduate.

## Notes about the Major

- The Economics major includes three required courses (9 credits) and five electives (15 credits). Economics majors should plan on taking all three required courses, especially ECO 4000, as early in their major program as possible. When registering, students should keep in mind that these courses are not given every semester and should plan their courses accordingly, particularly when the course is a prerequisite for further courses in the field.
- In addition to the required courses, an economics major must take a meaningful combination of five economics, finance, or insurance courses at the 3000-level or higher as electives. Of these five courses, at least two must be economics courses at the 4000-level or higher.
- FIN 3000 is not applicable to the major, although it is a prerequisite to other finance courses.
