Accessing DegreeWorks using Internet Explorer 8

If you are using Internet Explorer 8.0 and cannot access your audit within DegreeWorks, please try the following:

1. Go to the DegreeWorks web-site https://dgw.baruch.cuny.edu

2.) Once the DegreeWorks page is open, Log into DegreeWorks using your user name and password. A security question may appear, click ‘No’. Clicking “no” will allow you to view all of the content on the page.
3.) Once you are in DegreeWorks you will need to be in compatibility mode in order to view your audit within DegreeWorks. To access the “Compatibility View Button” right click on a grey area of the menu bar. A menu box will appear. Confirm that, “Compatibility View Button” has a check next to it. The “Compatibility View Button” will appear on the address bar next to the refresh button. Click on the button to activate it. Note: The compatibility view option will automatically appear when visiting a website that was created for older browser versions.
4. Be sure that the “Compatibility View Button” is active. The button is active when it is indented. As you can see from the diagram below, once the button is active (indented) you will be able to perform tasks within DegreeWorks.
