Instructions for connecting to the Baruch College
Wireless Network for Faculty and Staff
iOS (iPhone) Guide

Baruch College now offers a convenient, secure way for Faculty and Staff to connect their wireless devices to our secure wireless network. This guide will describe how you can connect your iPhone in a step-by-step manner.

Requirements:

Apple iPhone with the most recent iOS software update installed

**Step 1**: Make sure your wireless is turned on and is showing all available networks. Go to your phone settings via the Settings icon. Once there, select “Wi-Fi.”
If you are in range of a wireless access point while on campus, you will see the access point listed as “Baruch-FacStaff” as a choice.
Step 2: Select “Baruch-FacStaff” from the list of available access points. You will be prompted to enter your credentials.

Step 3: Please enter your Baruch College Login ID as the username and your password. You MUST include the domain your account belongs to before the username, exactly how you would login to some computers on campus. An example is found below:

Select “Join.”
**Step 4:** If the information you entered is correct, you will be asked to accept a certificate. This is necessary to be authenticated and connected.

Select “Accept.”
Once you select “Accept” you will then be connected to the Baruch-FacStaff wireless network.

If you have any problems, please do not hesitate to contact the Baruch College Computing & Technology Help Desk for assistance.
