Zicklin School of Business

ACC 9115 Managerial Accounting  
2 hours; 2 credits

This course introduces students to the field of managerial accounting. It includes an analysis of fixed and variable costs, product costs, relevant costs, investment decisions, and budgetary planning. There is coverage of variance analysis, transfer pricing, responsibility accounting, activity-based costing, and the relation between compensation and departmental performance.

BUS 9100 The Societal and Governmental Environment of Business  
3 hours; 3 credits

Intended to explain the environment of business decision making. The emphasis is on government regulation as a growing dimension of the environment of business decision making. In addition to dealing with such new governmental programs as those in environmental protection, occupational health and safety, and consumer regulation, the course will deal with such traditional topics as anti-trust regulations. The impact of social problems will be considered, as will be the ethical dilemmas of today’s business manager.

ECO 9708 Microeconomics for Managers  
2 hours; 2 credits

Today’s managers face increasing complexities in the economic environment within which they have to make decisions. Managerial decisions involving international competitiveness, mergers and acquisitions (M & A), corporate downsizing, automation, and the impact of government regulations require systematic analysis of situations with sophisticated decision-making apparatus. This course is designed to provide the managers with tools essential for efficient managerial decisions. Being a core MBA course, it is designed to provide basic tools of analysis that can be effectively utilized in more specialized courses in the MBA curriculum.
ECO 9709 Macroeconomics

This course will provide managers with an essential understanding of the basic forces and institutions that determine national income, employment, price levels, and interest rates in developed countries.
