Management is the science and art of running an organization. It involves setting goals, planning, organizing human and other resources, implementing plans, and guiding the organization to achieve desired goals. Management applies to for-profit, not-for-profit, and governmental organizations; it applies to small and larger organizations, to family-owned and stockholder-owned firms, and to units within larger organizations. The Major and Specializations

The management major prepares the student for entry level positions in operations management or personnel administration; for the broader managerial responsibilities that usually come with promotion and continue to expand throughout ones career; or to start and manage an entrepreneurial venture. Courses are designed to develop the necessary skills, insight, and knowledge for dealing with the human and organizational aspect of management and also to develop the analytical, creative, and quantitative skills required for allocating and utilizing resources and for making managerial decisions.

The Department of Management (MGT) offers courses in the concepts and techniques for managing all kinds of organizations. The department offers three specializations: entrepreneurship (ENT), human resource management (HRM), and operations management (OM). Each is outlined in detail below.
