Field Description

Our lives, our communities, and our world are to a considerable degree shaped by political events. Political science provides students with an understanding of the multifaceted ideas, structures, and processes of politics in the United States and abroad. Courses are designed to accomplish three principal objectives: to help the student acquire and establish habits of critical and creative thinking about public issues; to enlarge and broaden the students understanding of significant data, major ideas, and activities regarding politics; and to prepare students for careers in law, government, journalism, and education.
