

Master of Public Administration Program

- [For additional program information see the School of Public Affairs website](#)

The Master of Public Administration prepares students from a variety of academic and professional backgrounds to excel in careers with a public policy, public management, or nonprofit management orientation. The MPA provides students with an academic credential appropriate for employment in the public, nonprofit, and private sectors.

The MPA program has two key objectives. First, through a set of core courses, the program provides a strong foundation of practical and theoretical training for professional work in public service. Second, through free electives or the selection of a concentration, the MPA program offers students the opportunity to fashion a curriculum linked directly to their individual career and academic interests.

The Baruch MPA is fully accredited by the National Association of Schools of Public Affairs and Administration (NASPAA). Baruch's School of Public Affairs is the only nonprivate school of public affairs in New York City.

All students in the MPA program complete seven required courses and are required to earn a minimum grade point average of 3.0. This ensures that all students achieve a basic understanding of fundamental public administration principles and practices together with a foundation in communication skills, economic analysis, and statistical analysis. In addition to the required courses, students complete six elective courses chosen in consultation with a faculty advisor. Students without prior professional experience will also complete an internship in a public, nonprofit, or private-sector organization. In their final semester, all students take the Capstone Seminar, which emphasizes the application of students' knowledge and skills to specific professional situations.

Full-time and part-time MPA students (but not students in the NUF or Executive MPA programs) may choose to focus 12 of their 18 credits of elective course work in one of the four specializations: nonprofit administration, public management, policy analysis and evaluation, and health care policy. All four specializations participate in the shared MPA core, which does not vary from specialization to specialization. Specializations must be chosen in consultation with a School of Public Affairs advisor.

Selection of a specialization is not required. Students who choose not to take a specialization must structure their 18 elective credits in consultation with an advisor.

Core (21 credits)		
PAF 9100	Introduction to Public Affairs	3 credits
PAF 9103	Communication in Public Settings	3 credits
PAF 9120	Public and Nonprofit Management I	3 credits
