

Accountancy

The Master of Science in Accountancy is designed for students with bachelor's degrees in business areas, including accounting. The program equips students with the necessary tools to effectively interpret and use accounting and financial information. It meets the standards adopted by The Association to Advance Collegiate Schools of Business (AACSB) International - for special accreditation of accounting programs and the August 1, 2009, 150 credit hour requirements to sit for the NY State CPA exam. In addition to these benefits, the program also provides opportunities to develop "soft skills" in order to readily be able to communicate in CPA firms. Students with many course waivers must complete a minimum of 30 credits overall to receive the MS degree. Students with non-business undergraduate degrees can also apply, but are encouraged to consider the [MBA accounting major](#) which also meets the CPA requirements.

English Language Proficiency		
Students who completed their undergraduate education in a non-English speaking country will be required to take non-credit bearing modules in Grammar Troubleshooting and American English Pronunciation offered by the Division of Continuing and Professional Studies. These modules may be waived based on a waiver exam. The modules are not required for students who completed a four-year degree in an English-speaking country.		
General Business Requirements (36 credits)		
Students with appropriate background will be able to reduce the number of required credits in general business requirements, with the exception of BUS 9557.		
		Credits
BUS 9557	Managerial Skills for Accountancy Professionals (not subject to waiver)	3
