

# Dataset Updates and GIS Lab Status Spring 2018

We've recently updated several of our datasets:

- [NYC Mass Transit Spatial Layers](#): Janine created updated files for the buses last semester; since there were no changes to the subway and train files we let those go.
- [NYC Geodatabase](#): I created version jan2018 with updates to the census American Community Survey data tables for PUMAs, ZCTAs, and census tracts. The new tables are from the 2012-2016 ACS.
- [IRS Tax Exempt Organizations](#): We added a new file for dec2017, a list of all the non-profits in NYC.
- [US Presidential Election County Results](#): The government deleted this data from their servers, so we've saved it. Boundaries and tables for 2004, 2008, and 2012.

The GIS Lab is now open for business for the spring semester. I'm still away on leave until the end of August, but Janine continues to captain the ship and is in on Thursdays and Fridays. [GIS Lab](#) hours for the spring are posted.
