Field Description

The department offers courses in the areas of computer information systems (CIS), operations research, and statistics. Courses in each of these areas provide training in problem solving techniques useful in gaining strategic advantage in the marketplace. CIS students are afforded the opportunity to gain a strong foundation in the business, managerial, and technical issues related to information systems with courses in programming, data management, telecommunications, the Internet and e-commerce, and the analysis and design of computer-based solutions to business problems. Operations research trains students in the application of mathematical models and decision making for business, industry, and government with an emphasis on modeling methods, analysis, and implementation relevant to operational and management planning issues. Statistics students are provided with a skills base for the application of statistical techniques and tools to a wide variety of areas, including computational statistics, sample survey, experimental design, and quantitative methods in marketing.

The Majors

- [General Information](#)
- [BBA in Computer Information Systems \(General CIS Track\)](#)
- [BBA in Computer Information Systems \(Data Analytics Track\)](#)
- [BBA in Computer Information Systems \(Information Risk Management and Cybersecurity Track\)](#)
- [BBA in Statistics and Quantitative Modeling](#)
- [Statistics: BA Major](#)

General Information

The Department of Statistics and Computer Information Systems offers majors in the fields of computer information systems and statistics and quantitative modeling.

The **computer information systems** area prepares professionals in the development and use of computer-based technologies to develop systems that fulfill business information needs. Baruch's program trains students to analyze business needs and to design, implement, and use information systems to satisfy those needs.

The **operations research** area provides basic preparation for students who wish to pursue careers in the decision sciences and provides fundamental quantitative knowledge required by those who major in other business areas. Emphasis is placed on modeling methods, analysis, and implementation relevant to operational and management planning issues in many business areas, including marketing, production, finance, accounting, and information technology.

The **statistics** area not only provides the basic preparation for students who wish to pursue careers in statistics but also provides the quantitative knowledge required by those who major in other business areas. Statistics and quantitative modeling majors are provided with the base for the application of statistical techniques to a wide variety of fields.

[back to top](#)

BBA in Computer Information Systems

The CIS program provides a strong foundation in the business and managerial issues related to information systems. Computer information systems are presented in light of their role as tools for strategic advantage in the marketplace. To facilitate this, course offerings provide computer, technological, and problem - solving skills. The CIS program addresses such areas as CASE (computer-assisted software engineering), networks and telecommunications, electronic commerce, the Internet, client-server technology, and object-oriented technologies.

General CIS Track		
Required Courses	12 credits	
CIS 3100	Object-Oriented Programming I	3 credits
CIS 3400	Database Management Systems	3 credits
CIS 4800	Systems Analysis and Design	3 credits
CIS 5800	Information Technology Development and Project Management	3 credits
Elective Courses 12 credits		
<i>Any four courses from the following list:</i>		
CIS 3120	Programming for Analytics	3 credits
CIS 3150	Introduction to Semantic Technologies	3 credits
CIS 3367	Spreadsheet Applications in Business	3 credits
CIS 3444	e-Business Technologies	3 credits
CIS 3500	Networks and Telecommunications I	3 credits
CIS 3550	Cybersecurity	3 credits
CIS 3630	Principles of Web Design	3 credits
CIS 3700	Green IT	3 credits
CIS 3710	Foundations of Business Analytics	3 credits
CIS 3750	Social Media Technologies in Organizations	3 credits
CIS 3770	Usability, Privacy, and Security	3 credits
CIS 3920	Data Mining for Business Analytics	3 credits
CIS 4100	Object-Oriented Programming II	3 credits
CIS 4110	Object-Oriented Programming II With Java	3 credits
CIS 4160	Web Applications Development	3 credits
CIS 4170	Data Visualization	3 credits

CIS 4350	Information Technology Audit	3 credits
CIS 4400	Data Warehousing for Analytics	3 credits
CIS 4500	Networks and Telecommunications II	3 credits
CIS 4610	Expert (Knowledge-Based) Systems and Related Technologies	3 credits
CIS 4620	Financial Information Technologies	3 credits
CIS 4650	Operating Systems Concepts	3 credits
CIS 4093	Special Topics in Computer Information Systems	3 credits
CIS 4094	Special Topics in Computer Information Systems	1.5 credits
OPR 3300	Quantitative Methods for Accounting*	3 credits
OPR 3450	Quantitative Decision Making for Business I*	3 credits

*Students may not receive credit for both OPR 3450 and OPR 3300.

[back to top](#)

Data Analytics Track

Required Courses (12 credits)

CIS 3120	Programming for Analytics	3 credits
CIS 3400	Database Management Systems	3 credits
CIS 3920 / STA 3920	Data Mining for Business Analytics	3 credits
CIS 4400	Data Warehousing for Analytics	3 credits

Elective Courses (12 credits)

Choose four (4) courses of 3 credits each from the following. At least one of which should be a CIS course and one should be a STA course or an OPR course.

CIS 3100	Object Oriented Programming I	3 credits
CIS 3150	Introduction to Semantic Technologies	3 credits
CIS 3710	Foundations of Business Analytics	3 credits
CIS 4170	Data Visualization	3 credits
STA 3154	Business Statistics II	3 credits
STA 3155	Regression and Forecasting Models for Business Applications	3 credits
OPR 3450	Quantitative Decision Making for Business I	3 credits
OPR 3451	Quantitative Decision Making for Business II	3 credits

MKT 4123	Marketing Web Analytics and Intelligence	3 credits
MKT 4561	Marketing Analytics	3 credits
back to top		
Information Risk Management and Cybersecurity Track		
Required Courses (15 credits)		
CIS 3100	Object Oriented Programming I	3 credits
CIS 3400	Database Management Systems	3 credits
CIS 3500	Networks and Telecommunications I	3 credits
CIS 3550	Cybersecurity	3 credits
CIS 4350	Information Technology Audit	3 credits
Elective Courses (9 credits) Choose three courses from the following list:		
CIS 3120	Programming for Analytics	3 credits
CIS 3750	Social Media Technologies in Organizations	3 credits
CIS 3770	Usability, Privacy, and Security (effective Spring 2017)	3 credits
CIS 4100	Object-Oriented Programming II	3 credits
CIS 4110	Object-Oriented Programming II with Java	3 credits
CIS 4160	Web Applications Development	3 credits
CIS 4500	Networks and Telecommunications II	3 credits
CIS 4620	Financial Information Technologies	3 credits
CIS 4800	Systems Analysis and Design	3 credits

BBA in Statistics and Quantitative Modeling

The statistics and quantitative modeling major is designed to develop quantitative thinking skills that are invaluable in business. The student will take courses from a variety of quantitative disciplines that focus extensively on statistical methodology, mathematical modeling, and computer implementation issues applied to business. The use of the computer for the solution and analysis of business problems is an integral part of the program. Graduates of this program will have a broad foundation in statistics or quantitative modeling and will be well positioned for the analysis and solution of decision problems facing business and industry in the 21st century.

It is essential that the student consult with an area advisor to plan a program prior to taking any courses in the major.

Major		
Required Courses (12 credits)		
CIS 3100	Object-Oriented Programming I	3 credits
OPR 3450	Quantitative Decision Making for Business I *	3 credits
STA 3154	Business Statistics II	3 credits
STA 3155	Regression and Forecasting Models for Business Applications	3 credits
*OPR 3300 Quantitative Methods for Accounting may be substituted for OPR 3450 with the approval of the area advisor		
Elective Courses (12 Credits)		
Electives may be selected after consultation with an advisor:		
CIS 3400	Database Management Systems	3 credits
CIS 4100	Object-Oriented Programming II	3 credits
OPR 3451	Quantitative Decision Making for Business II	3 credits
OPR 3452	System Simulation	3 credits
OPR 3453	Bayesian Statistical Inference and Decision Making	3 credits
OPR 4470	Special Topics in Operations Research	3 credits
OPR 5000	Independent Study and Research in Operations Research	3 credits
STA 3156	Sampling Theory and Practice	3 credits
STA 3253	Categorical Data Analysis	3 credits
STA 3255	Statistical Quality Control Methods	3 credits
STA 3560	Nonparametric Statistics	3 credits
STA 4000	Introduction to SAS Programming	3 credits
STA 4157	Design and Analysis of Experimental Data	3 credits
STA 4158	Analysis of Time Series	3 credits
STA 4370	Special Topics in Applied Statistics	3 credits
STA 5000	Independent Study and Research in Statistics	3 credits
MGT 3710	Introduction to Supply Chain Management	3 credits
MKT 3600	Marketing Research	3 credits

MTH 3020	Intermediate Calculus	4 credits
MTH 4120	Introduction to Probability	4 credits
MTH 4125	Introduction to Stochastic Processes	4 credits
MTH 4130	Mathematics of Statistics	4 credits
MTH 4140	Graph Theory	3 credits
MTH 4320	Fundamental Algorithms	4 credits
MTH 4451	Risk Theory	4 credits
MTH 4500	Introductory Financial Mathematics	4 credits
Note: Other quantitative courses may be selected subject to approval of the area advisor. A maximum of three elective courses may be taken outside the Zicklin School of Business.		

[back to top](#)

Statistics: BA Major

Arts and sciences students can major in one of the following three programs in the Department of Statistics and Computer Information Systems:

- [Statistical Theory](#)
- [Psychometrics](#)
- [Sociometrics](#)

The department offers courses for students who are primarily interested in mathematics, psychology, and sociology. Statistical theory, using the Colleges extensive computer installations, provides professional training for those who desire a career in operations research, quality control and reliability, health sciences and governmental statistics, design and analysis of surveys, and computer information systems. Joint major programs in conjunction with the Departments of Psychology and Sociology and Anthropology are offered and include courses to augment study in psychometrics and sociometrics.

NOTE: This program is under revision, so it is important to consult a faculty advisor to plan a proper sequence of courses. Interested students should contact Professor Kamiar Rahnama Rad ([Kamiar.RahnamaRad@baruch.cuny.edu](#)).

Statistical Theory

Base Courses

CIS 2200	Introduction to Information Systems and Technologies	3 credits
STA 2000	Business Statistics I	3 credits
MTH 2630	Analytic Geometry and Calculus I	5 credits
MTH 3030	Analytic Geometry and Calculus II	5 credits

Major

The major consists of 24 credits, with up to 9 credits in mathematics. **Required Courses**

STA 3551	Theory of Statistics I - Introduction to Probability and Distribution Theory	3 credits
STA 4552	Theory of Statistics II - Statistical Inference	3 credits

Elective Courses

CIS 3100	Object-Oriented Programming I	3 credits
OPR 4652	Introduction to Mathematical Programming	3 credits
OPR 4653	Introduction to Statistical Decision Theory and Game Theory	3 credits
OPR 4654	Queueing Theory and Inventory Models	3 credits
	Sampling Theory and Practice	3 credits
STA 3255	Statistical Quality Control Methods	3 credits
STA 3560	Nonparametric Statistics	3 credits
STA 4158	Analysis of Time Series	3 credits
STA 4256	Advanced Sampling Methods	3 credits
STA 5559	Introduction to Multivariate Analysis	3 credits
MTH 4010	Advanced Calculus I	3 credits
MTH 4020	Advanced Calculus II	3 credits
MTH 4100	Linear Algebra and Matrix Methods	3 credits
MTH 4120	Introduction to Probability	3 credits
MTH 4130	Mathematics of Statistics	3 credits
MTH 5010	Advanced Calculus III	3 credits
Return to Statistics: BA Major back to top Psychometrics Note: A number of the courses listed below are not currently offered. Students interested in psychometrics should consult with a department advisor. Base Courses		
CIS 2200	Introduction to Information Systems and Technologies	3 credits
STA 2000	Business Statistics I	3 credits
MTH 2630	Analytic Geometry and Calculus I	5 credits

Major: 24 credits **Required Courses**

STA 2555	Applied Methods I - Probability and Statistics	3 credits
STA 3556	Applied Methods II - Statistical Inference	3 credits
STA 4561	Factor Analysis and Classification Techniques	3 credits
PSY 3053	Tests and Measurements	3 credits

Elective Courses

OPR 4653	Introduction to Statistical Decision Theory and Game Theory	3 credits
STA 3156	Sampling Theory and Practice	3 credits
STA 3560	Nonparametric Statistics	3 credits
STA 5559	Introduction to Multivariate Analysis	3 credits
MTH 3030	Analytic Geometry and Calculus II	5 credits
MTH 4100	Linear Algebra and Matrix Methods	3 credits
PSY 3056	Social Psychology	3 credits
PSY 3180	Vocational Psychology	3 credits
PSY 3181	Business and Industrial Psychology	3 credits
PSY 3182	Interviewing Techniques	3 credits
PSY 3183	Psychology and Urban Problems	3 credits
PSY 4092	Special Problems in Psychology	2 credits
PSYS 4282	Advanced Psychological Testing	3 credits

[Return to Statistics: BA Major](#)

[back to top](#)

Sociometrics

Note: A number of the courses listed below are not currently offered. Students interested in sociometrics should consult with a department advisor.

Base Courses

CIS 2200	Introduction to Information Systems and Technologies	3 credits
STA 2000	Business Statistics I	3 credits
MTH 2630	Analytic Geometry and Calculus I	5 credits

Major: 24 credits Required Courses

STA 2555	Applied Methods I - Probability and Statistics	3 credits
STA 3556	Applied Methods II - Statistical Inference	3 credits
STA 3563	Design of Social Research	3 credits
SOC 4032	Methods of Sociological Research	3 credits

Elective Courses

OPR 4653	Introduction to Statistical Decision Theory and Game Theory	3 credits
STA 3156	Sampling Theory and Practice	3 credits
STA 3560	Nonparametric Statistics	3 credits
STA 5559	Introduction to Multivariate Analysis	3 credits
MTH 3030	Analytic Geometry and Calculus II	5 credits
MTH 4100	Linear Algebra and Matrix Methods	3 credits
SOC 3155	Urban Sociology	3 credits
SOC 3052	Social Stratification	3 credits
SOC 3055	Population and Society	3 credits
SOC 3064	Modern Organizations	3 credits
SOC 3082	Small Groups	3 credits

Equivalent courses in the arts and sciences and business curricula:

The following pairs of courses are considered as equivalent for purposes of credits. Students can be given credit for either course but not for both:
STA 2000 and STA 2100 (STA 2000 may be used for either the BA or BBA)
STA 3154 and STA 3556
STA 3155 and STA 4554
STA 4157 and STA 4557
OPR 3453 and OPR 4653

The Minors

General Information

The Department of Information Systems and Statistics offers five minor concentrations*. Each is outlined below:

- [Computer Applications in Business](#)
- [Cybersecurity and Information Assurance](#)
- [Data Analytics](#)
- [Quantitative Methods and Modeling](#)
- [Statistics](#)

- [Liberal Arts Interdisciplinary Minor in Information Technology and Social Responsibility](#)
- [Business Minors for Non-Business Majors](#)

* Optional second minors open only to students pursuing a major within the Zicklin School of Business

Computer Applications in Business (9 credits)

This minor is designed to prepare students majoring in other areas of business to be competent end users and decision makers in a computer information systems environment. The focus is on using microcomputers and higher-level applications software to implement useful applications in a wide range of business areas.

Required Courses

Choose any three courses (9 credits) from the list of 3000, 4000, or 5000 level CIS courses except CIS 3270, CIS 3810 and CIS 4910.
Prerequisites must be satisfied.

[back to top](#)

Cybersecurity and Information Assurance (9 credits)

This minor would provide an opportunity for students majoring in various areas of business to develop basic understanding of information security and assurance issues that organizations face today and the potential solutions available.

Required Courses (9 credits)		
CIS 3500	Networks and Telecommunications I	3 credits
CIS 3550	Cybersecurity	3 credits
CIS 4350	Information Technology Audit	3 credits

[Return to Minors](#)

[back to top](#)

Data Analytics (9 credits)

This minor would provide an opportunity for students majoring in various areas of business to develop basic data literacy and to integrate techniques and solutions from the areas of technology, statistics, and quantitative modeling in developing business intelligence to facilitate organizational decision-making

Required Courses (6 credits)		
CIS 3920 / STA 3920	Data Mining for Business Analytics	3 credits
CIS 3120	Programming for Analytics	3 credits
Elective Courses (3 credits) - Choose one course from the following list.		
CIS 3400	Database Management Systems	3 credits
CIS 4170	Data Visualization	3 credits
CIS 4400	Data Warehousing for Analytics	3 credits
STA 3154	Business Statistics II	3 credits
STA 3155	Regression and Forecasting Models for Business Applications	3 credits
MKT 4123	Marketing Web Analytics and Intelligence	3 credits
MKT 4561	Marketing Analytics	3 credits
MGT 3500	Business Decision Models*	3 credits
OR		
OPR 3450	Quantitative Decision Making for Business I*	3 credits
* Students receiving credit for MGT 3500 will not also receive credit for OPR 3450.		
Return to Minors back to top		
Quantitative Methods and Modeling (9 credits)		
The minor in quantitative methods and modeling is designed to prepare students majoring in other areas of business with a background of quantitative skills that facilitate the decisionmaking process. In addition to one required course, two elective courses are selected with the approval of the area advisor to complement the students major and provide the student with an appropriate background.		
Required Courses		
OPR 3450	Quantitative Decision Making for Business I	3 credits
or		
OPR 3300	Quantitative Methods for Accounting	3 credits
<i>Two courses selected with the approval of the area advisor from the following:</i>		
CIS 3400	Database Management Systems I	3 credits
CIS 4100	Object-Oriented Programming II	3 credits

OPR 3451	Quantitative Decision Making for Business II	3 credits
OPR 3452	System Simulation	3 credits
OPR 3453	Bayesian Statistical Inference and Decision Making	3 credits
OPR 4470	Special Topics in Operations Research	3 credits
OPR 5000	Independent Study in Operations Research	3 credits
STA 3154	Business Statistics II	3 credits
STA 3155	Regression and Forecasting Models for Business Applications	3 credits
STA 4000	Introduction to SAS Programming	3 credits
Other quantitative courses may be selected subject to approval of the area advisor.		
Return to Minors back to top		
Statistics The minor in statistics consists of the courses listed below.		
Required Courses 3 credits		
STA 3154	Business Statistics II	3 credits
Elective Courses 6 credits <i>Two courses selected from the following:</i>		
OPR 3450	Quantitative Decision Making for Business I	3 credits
STA 3155	Intermediate Statistical Methods	3 credits
STA 3156	Sampling Theory and Practice	3 credits
STA 4000	Introduction to SAS Programming	3 credits
STA 4370	Special Topics in Applied Statistics	3 credits

Liberal Arts Interdisciplinary Minor in Information Technology and Social Responsibility

The internet age has fostered an environment of widespread interconnectedness. This hyperconnectivity, and the new media that proliferate along with it, come with their own specific problems. The purpose of this concentration is to study the effects of these new technologies on the individual, the workplace, and society at large. In this program of study students will examine the increasing importance of individual and organizational social responsibility in today's interconnected and computer-mediated environment, as well as the specific issues that stand at the intersection of social responsibility and information technology.

Required Course: 3 credits

CIS 4910	Information Technology and Social Responsibility*	3 credits
--------------------------	---	-----------

Elective Courses 6 credits

Two courses selected from the following:

BLS 3013	Mass Media and the Black American	3 credits
CIS 3270	Computer Ethics* (PHI 3270)	3 credits
CIS 3700	Green IT*	3 credits
CIS 3810	Principles of New Media*	3 credits
COM 3060	Media Analysis and Criticism	3 credits
COM 3076	International Communication	3 credits
JRN 3220	Media Ethics	3 credits
JRN 3500	Advanced Reporting and Writing	3 credits
LIB 3040	Information and Society (COM 3040 or PAF 3040)	3 credits
PHI 3040	Mind and Computers	3 credits
PHI 3050	Ethics, Economics, and the Business System	3 credits

Courses may be organized into the following suggested tracks:

Media

BLS 3013	Mass Media and the Black American	3 credits
CIS 3810	Principles of New Media*	3 credits
COM 3060	Media Analysis and Criticism	3 credits
COM 3076	International Communication	3 credits

JRN 3220	Media Ethics	3 credits																											
Information Society																													
CIS 3810	Principles of New Media*	3 credits																											
COM 3076	International Communication	3 credits																											
JRN 3500	Advanced Reporting and Writing	3 credits																											
LIB 3040	Information and Society (COM 3040 or PAF 3040)	3 credits																											
Philosophy and Ethics																													
CIS 3270	Computer Ethics* (PHI 3270)	3 credits																											
JRN 3220	Media Ethics	3 credits																											
PHI 3040	Mind and Computers	3 credits																											
PHI 3050	Ethics, Economics, and the Business System	3 credits																											
*For the purposes of this program, this course counts as an Arts and Sciences course. back to top Business Minors for Non-Business Majors Students in the Weissman School of Arts and Sciences or in the Marx School of Public and International Affairs who wish to take business courses may do so by declaring a minor in statistics and quantitative modeling or in technology, business, and the Internet. Before declaring the minor, they must complete either BUS 1001 (1 credit) or have previously completed BUS 1011 (3 credits). To be awarded the minor, students must have a GPA of 2.0 or more in the courses included in the minor. Eligibility to declare such a minor is restricted to students who have an overall GPA of 2.0 or more at time they declare the minor. Courses that apply to the minor may not be used for any other requirement. This minor does not fulfill the requirement to complete a liberal arts minor. Students must choose three courses (9 credits) from the following: Statistics and Quantitative Modeling <table> <tr> <td>CIS 3100</td><td>Object-Oriented Programming I</td><td>3 credits</td></tr> <tr> <td>OPR 3300</td><td>Quantitative Methods for Accounting</td><td>3 credits</td></tr> <tr> <td>OPR 3450</td><td>Quantitative Decision Making for Business I</td><td>3 credits</td></tr> <tr> <td>STA 3154</td><td>Business Statistics II</td><td>3 credits</td></tr> <tr> <td>STA 3155</td><td>Regression and Forecasting Models for Business Applications</td><td>3 credits</td></tr> </table> Technology, Business, and the Internet <table> <tr> <td>CIS 3100</td><td>Object-Oriented Programming I</td><td>3 credits</td></tr> <tr> <td>CIS 3367</td><td>Spreadsheet Applications in Business</td><td>3 credits</td></tr> <tr> <td>CIS 3400</td><td>Database Management Systems I</td><td>3 credits</td></tr> <tr> <td>CIS 3444</td><td>e-Business Technologies</td><td>3 credits</td></tr> </table>			CIS 3100	Object-Oriented Programming I	3 credits	OPR 3300	Quantitative Methods for Accounting	3 credits	OPR 3450	Quantitative Decision Making for Business I	3 credits	STA 3154	Business Statistics II	3 credits	STA 3155	Regression and Forecasting Models for Business Applications	3 credits	CIS 3100	Object-Oriented Programming I	3 credits	CIS 3367	Spreadsheet Applications in Business	3 credits	CIS 3400	Database Management Systems I	3 credits	CIS 3444	e-Business Technologies	3 credits
