

Bachelor of Business Administration

The BBA program consists of 124 credits: a minimum of 62 credits in arts and sciences and 54 credits in required business courses (30 credits in the business base and 24 credits in the major). The remaining 8 credits are considered free electives and may be used for arts and sciences and business courses. Students must not only maintain a minimum C average (or 2.0 GPA) in their degree work, but they must also achieve at least a C average in their major and must complete a minor in arts and sciences (Liberal Arts minor). The minor requirement, which is included in the 62-credit arts and sciences requirement, consists of three courses of disciplinary study (in some instances, interdisciplinary). The first two courses are taken at the 3000 level or higher, and the final course must be a 4000-, 5000-, or 6000-level capstone course. Capstone courses are research oriented and communication intensive. Students may choose to complete a second minor in a business discipline using free electives.

- A minimum of 60% of the credits in the major field must be completed at Baruch College.
- A transfer student must meet all degree requirements and take a minimum of 31 credits at Baruch for the BBA degree.
- Second degree students cannot major in Accounting.
- A second-degree business student must meet all degree requirements and complete a new specialization and take a minimum of 31 credits at Baruch, of which a minimum of 27 credits must be in business courses.
- None of the courses in the second major can have been used for the previous major if your first undergraduate degree was completed at Baruch College.
- There is no GPA requirement for College Option courses, but to graduate with a liberal arts minor, a student must have a grade point average of at least 2.0 in the three courses that make up the minor.
