ANTI-HAZING TRAINING
OBJECTIVES

- Help you understand the definition of hazing
- Inform you of the Baruch College and the City University of New York (CUNY) anti-hazing policies
- Educate you on strategies to prevent hazing
- Encourage you to learn more about the rights and benefits of being a part of a recognized organization on campus
• No individual should be demeaned, ridiculed, belittled, or placed in a potentially dangerous situation in order to be included in a group at Baruch College.

• While being part of a campus group can be one of the most meaningful aspects of student life, hazing is a hidden and serious problem that undermines the value of these experiences for many individuals.

• Students who are members of clubs, teams and groups on campus make connections with others, have improved grades, and are more likely to graduate. All members of the community need to ensure that as students are being encouraged to join organizations, that the organizations they join provide healthy and safe activities.
