

Dear Prospective Student,

Please be advised that Baruch's policy regarding pursuit of a second bachelor's degree with a major in Accounting has changed.

The Zicklin School of Business will **no longer** offer the option of earning a BBA in Accounting to any student who has previously completed a bachelor's degree, regardless of the discipline. This policy change will be effective beginning with applicants for the **Fall 2011** semester.

As an alternative, applicants currently holding a bachelor's degree of any kind are advised to apply for admission to the Zicklin School's Master of Science (MS) program in Accounting. Specific program requirements and prerequisites may be found on the Zicklin School of Business website.

We value and appreciate your interest in Baruch College and wish you continued success in your studies.

Sincerely,

Marisa DeLaCruz
Director, Undergraduate Admissions
